Babelfish- Install prevented

Posted by FREDX - 2008/09/04 21:13

Hi,

When I try to install this mod I get the following error:

Warning: move_uploaded_file() : Unable to move '/tmp/php1zP6K6' to '/home/mywfcor/public_html/tmp/mod_babelfish15.zip' in /home/mywfcor/public_html/libraries/joomla/filesystem/file.php on line 344

Does anyone know why I'm getting this message in the installer area?

Thank You
