## Meebo Chat Room Component

Posted by TheKOE - 2008/09/21 17:51

---

This thread discusses the Content article: Meebo Chat Room Component

### Video Removal

This is pretty cool but, now that I started the video in the chat, how do I remove it? I don't see any button in plain site...

Dear: Whoever can help me :laugh:

I followed your instructions exactly regarding the Meebo component for Joomla 1.5 but it's not appearing on my website. (it is enabled, i looked to make sure it has the green check mark.) It's not showing anywhere, but i did everything including entering the correct Room ID which was inside the giant code. Any tips would be greatly appreciated, thanks in advance!

Hi,

It is component and is not a module.  
Btw, this component (Joomla 1.0) is no longer supported.
