Have the google conect instaled and params included.. I also see noting.  
Yes it is enabled and even with title, but this also don't shoe  
I am running firefox:(

hi,

read the tutorial and make sure you follow the steps.

Me again

Neoworx are completely ignoring me - how do they expect me to give them ANY money for NO support.

look here for details: <http://forum.joomla.org/viewtopic.php?f=470&t=453524>
