Hi,

Thanks fro so great "Joomla Module Plugin Wizard Form Plugin" ! :D

I have question :

- in admin paramters it has only "Add" but no "remove" or "Edit"
- the tutorial is very good but I can find find tut for joomla 1.0.x ?
- I want to do a simple module like : display last published articles with mosimage, how i can do that ? a tut ?

thanks

C.
