
Facebook Like Box - Header Background Color

Posted by okequip - 2011/12/23 15:07

The widget installed with no issues! :)

I want to change the background color of the like box header. Right now it has a black background with white letters.

I would like to change to black to our primary site color, blue.

I searched everywhere, but can't seem to find the answer. How can I do that?

hi,

for this moment this module still relies heavily on Facebook Like Box feature itself and there is no feature to change header background color.

stay tune for next update!

This feature seems really interesting. I would like to change the background color of the like box header into purple. I am tired of looking at the same Facebook homepage. I want some change. So, can you tell me how to change my facebook homepage ?
