## Vizualisation

Posted by alloverme - 2009/07/13 11:16

---

Hi!

I've tried on windows xp sp3 with .net

I can't see the vizulisation, same on xml or html.

I just download the YouCMSAndBlog, does anything else is needed?

Thanks

hi, to test out, you can open any sample Blogger template shipped with this application and start to type, delete etc or simply following tutorial for designing joomla template on this website.
